PRIVACY POLICY

It is the policy of Sauls Seismic, LLC to store the video, photographs and field notes taken during this inspection on a secure, Cloud-based storage system. The information taken at the time of this inspection will only be disclosed if:

- 1. It is required by the specifications of the project to be submitted to the project owner/engineer for approval.*
- 2. It is required by law to be submitted to the state regulatory agency for approval.*
- 3. It is subpoenaed by an official of the court.*
- 4. The homeowner files a claim of damage against the contractor. In this case, the information will be made available only to the person(s) responsible for investigating the claim.*
- 5. The homeowner requests a copy of the information. This will be done at the homeowner's expense and only upon approval of the contractor.*
